

**ICEEE 2018**

Nov21-25, 2018  
Melbourne Australia

International Conference on Energy, Ecology and Environment

**CALL FOR PAPERS**

**Energy**

- Smart Energy Networks
- Energy Information System Management
- Innovative Energy Architectures with Cloud Technology
- Advanced Energy Storage
- Battery and Electrical Vehicles/Ships/Flights
- Renewable Energy and Clean Energy
- Smart Buildings
- Modelling, Simulation and Optimization of Energy Systems
- Efficiency Energy Conversion and Utilization
- Energy economics including life cycle assessment and auditing

**Ecology**

- Ecological and environmental impacts of energy production including greenhouse gases emission, pollution and climate change
- Virtual Reality, 3D Applications, and Immersive Visualization
- Energy Network based on GIS
- Energy and Materials Metabolism
- Agent-based Modelling
- Urbanization and Accessibility

- Urban Economy and Energy Investment
- Intelligent Algorithm-based Decision Support for Complex Energy Systems
- Sustainable management of global natural resources including forest, land, air and water
- Sustainable industrial and agricultural production
- Sustainable cities and waste management strategies

**Environment**

- Sustainable transport and intelligent transportation system
- Renewable Energy Policy and Finance
- Urban Climate Policy and Analysis
- Energy Use and Urban Air Quality
- Waste-to-Energy Conversion
- Global energy crisis and its impact on economy and environment
- Urban Planning and Energy Landscape
- Big data and visualization for energy management systems
- Emission reduction, carbon captures and storage including soil carbon sequestration
- Sustainable nanotechnology

**KEY DATES**

Submission open  
APR 10, 2018

Draft deadline  
SEPT 30, 2018

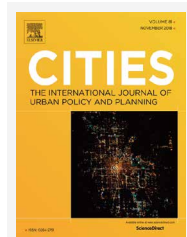

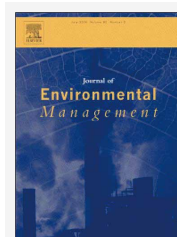

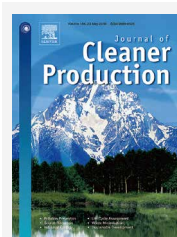

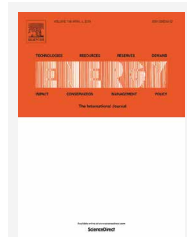

Registration open  
OCT 10, 2018

Review and acceptance  
OCT 10, 2018

Deadline for Early-bird  
OCT 15, 2018

Deadline for full paper  
OCT 31, 2018

Online registration close  
NOV 5, 2018

All papers will be peer reviewed before being accepted for ICEEE2018. The conference proceedings will be published by the DEStech Publications and be submitted to EI, Clarivate Analytics Web of Science (WoS), Thomson Reuters CPCI-SSH (if appropriate) and CNKI for worldwide online citation. The scientific committee will recommend some of the presented papers for the further consideration of the special issue in Journal of Environmental Management, Energy, Journal of Cleaner Production, Cities, and so on (SCI-index).
